2. Haiti

3. Democratic People's Republic of Korea

While most countries started their vaccination campaign, actual coverage varies across WHO regions

Share of WHO member states with theoretical coverage¹ of more than 20% (2 dose regimen)
of member states

1. Calculated based on the total number of vaccines administered. Assuming no need for intervals between 2 doses

Of the 17 COVID-19 vaccines now in use, AstraZeneca & Pfizer products are used in the greatest number of countries

■ SII - Covishield only ■ AstraZeneca - Vaxzevria only ■ Unspecified or both

Vaccine

Number of countries & economies using the vaccine

29 economies are using 1 vaccine; 184 are using 2 or more vaccines

1. World Bank classification (2021) of 218 economies. Note: The term country, used interchangeably with economy, does not imply political independence but refers to any territory for which authorities report separate social or economic statistics.

Inequity is decreasing, but HICs have administered 63x more doses per inhabitant than LICs

● HIC ■ UMIC ▲ LMIC ◆ LIC ● Worldwide
