

## **CORRIGENDA**

**WHO information note: COVID-19: considerations for tuberculosis (TB) care, 5 May 2021  
(WHO/2019-nCoV/TB\_care/2021.1)**

**Page 3, lines 37–45**

*Delete:*

**Proactive planning, procurement, supply and risk management:**

Appropriate planning and monitoring are essential to ensure that procurement and supply of TB medicines and diagnostics are not interrupted. Mobilization of additional funding by donors, with a more equitable allocation for TB, will be critical in a near future to support countries to catch up on their TB activities from now unto the post-COVID-19 recovery stages (6),(14). In this way they can keep progressing towards the targets of the End TB Strategy and the 2018 UN High Level Meeting on TB and review the operationalization of their national TB strategic plans in order to be able to achieve the expected objectives in a shorter space of time.
