

# Joint Outbreak Response to Zoonotic Diseases

Milena Bainduri

Department of Communicable Diseases

National Center for Disease Control and Public Health, Georgia

## Primary Objective

The programme's goal is for the participants to develop a **joint framework for a coordinated response to zoonotic disease outbreaks**.

This framework ensures that all actors have a good understanding of their role and the contribution of the other parties and proposes a structure for joint management of the outbreak.

- 1.** *Online Introduction*
- 2.** *Face to Face Workshop*
- 3.** *Post-Workshop*

# Online Introduction

1.

- 3 video lectures on health response to zoonotic outbreaks.
- Discussion forum and assignment.

## RePrep – Response and Preparedness for Zoonotic Outbreaks in a One-Health approach

Online Introduction

# Face to Face Workshop

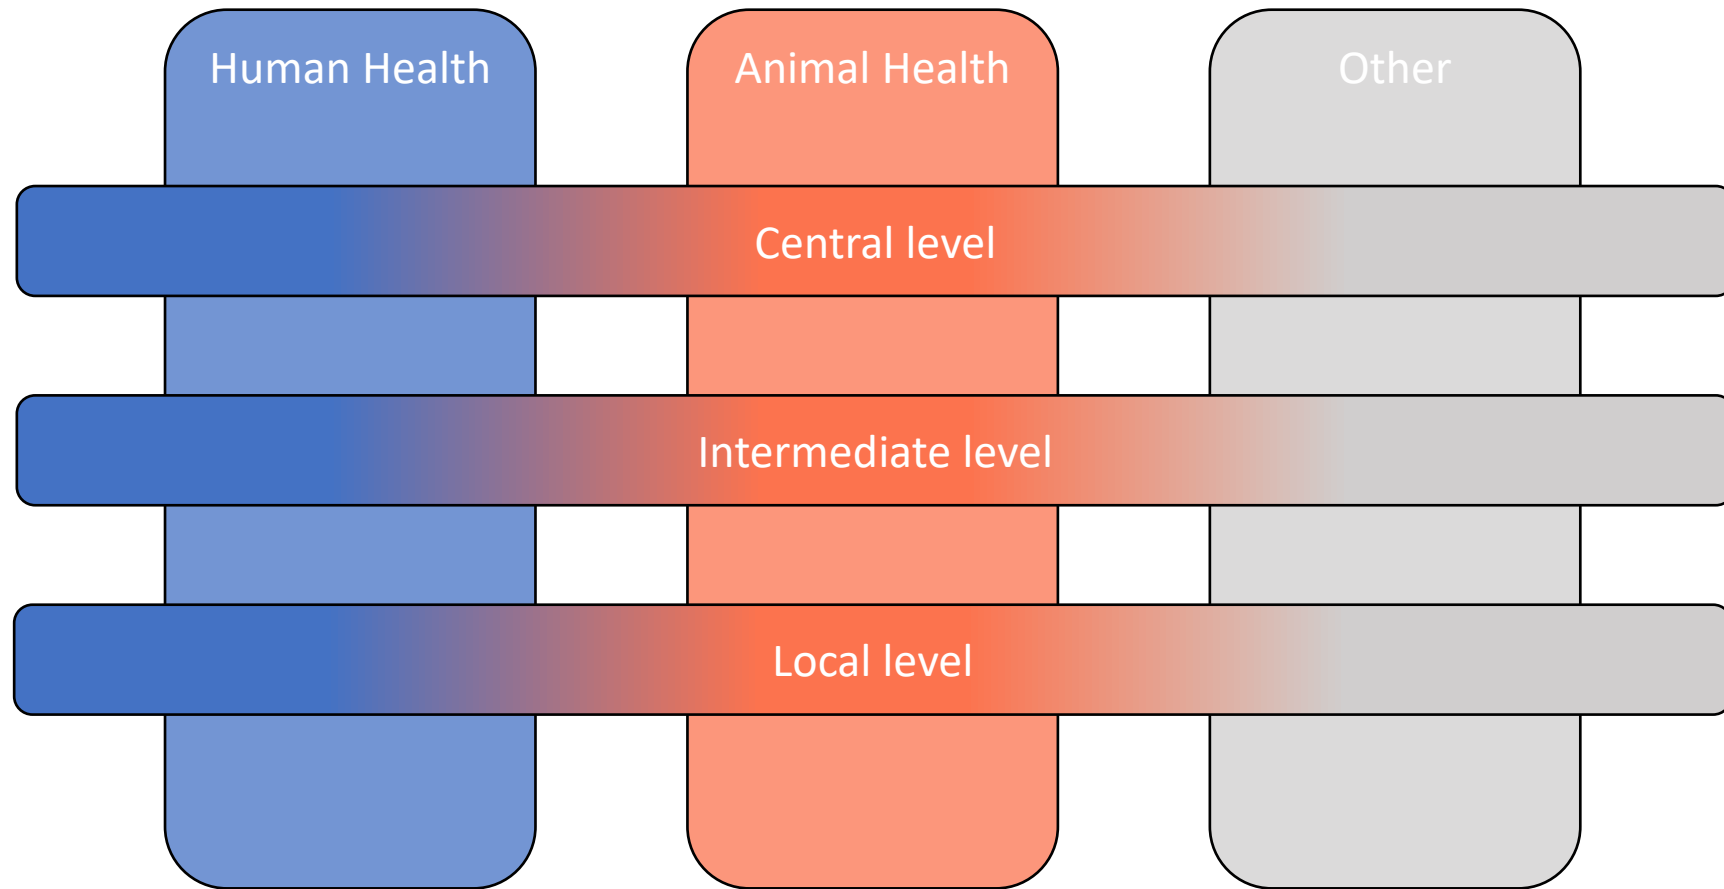

## 2.

- ☐ Participants from all sectors.
- ☐ Simulated outbreak.
- ☐ Improve SOP, ToR and existing plans.

# Audience

---

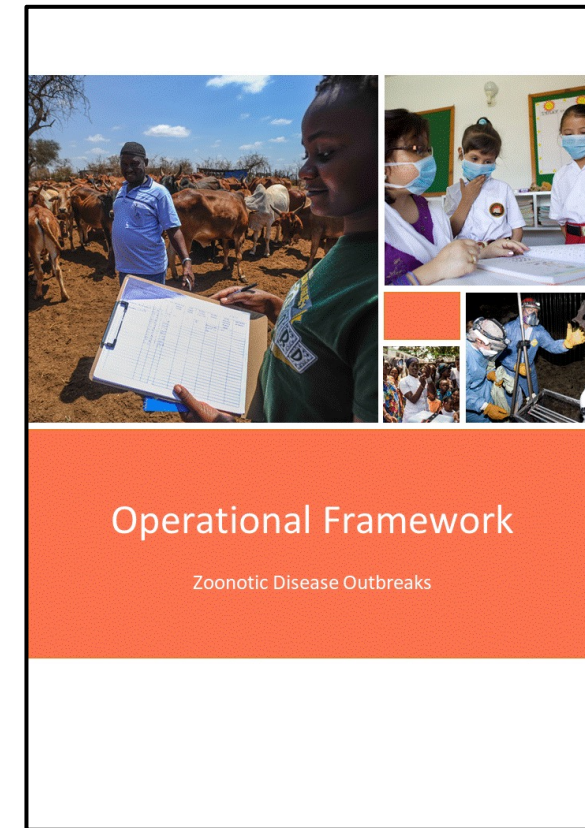

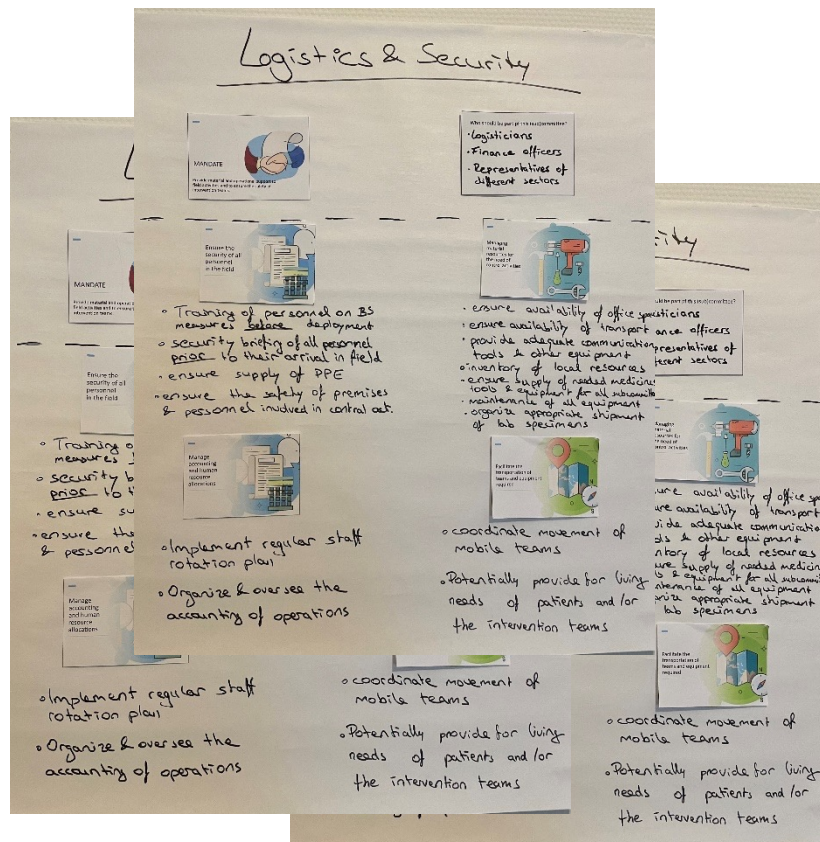

25-50 participants

# Face to Face Workshop

- All outputs from the exercises and discussions are used to develop the framework

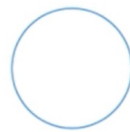

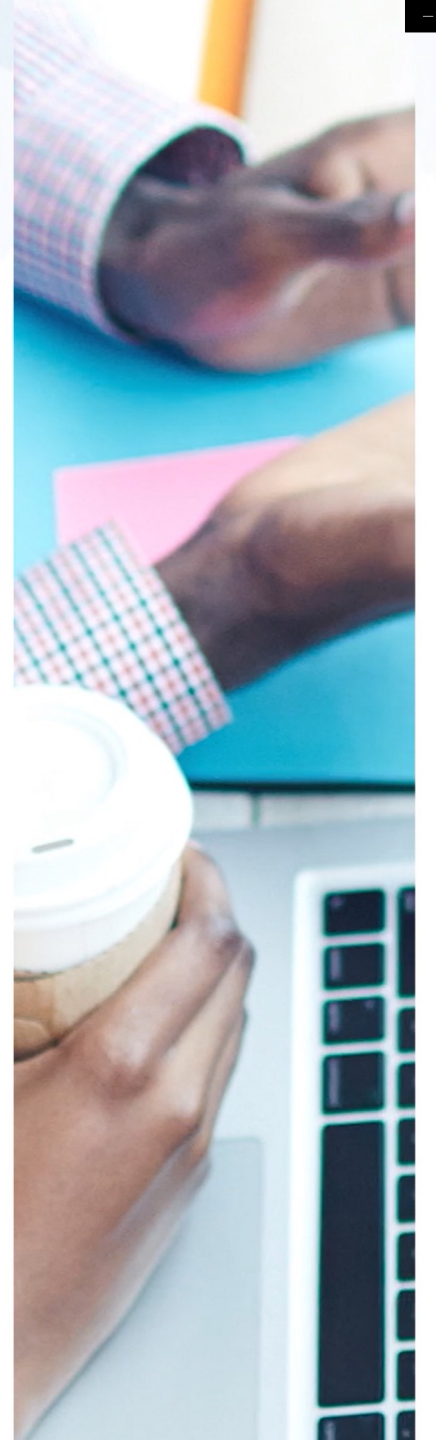

*Online Introduction*  
*Face to Face Workshop*

## *Post-Workshop*

**3.**

*Follow up projects (voluntary).*

# Response Preparedness (RePrep) Workshop on the Preparedness to Zoonotic Disease Outbreaks

19-21 April 2023  
Tbilisi, Georgia

- Session 1 - Introductions And Current Plans
- Session 2 - Venn-diagram Exercise
- Session 3 - Introducing The Outbreak Scenario
- Session 4 - Pre-epidemic Phase
- Session 5 - Alert Phase
- Session 6 - Response Phase
- Session 7 - Finalizing The Framework

## RePrep Workshop Outcomes

- Increased the understanding of common activities, concerns and challenges of the different sectors during zoonotic disease outbreak response
- Identified strengths and areas of improvement for joint activities
- Increased understanding of why a JRA is needed and beneficial
- Developed main points for a draft of the framework
- Increased understanding of each groups mandate and function
- Agreed on overall structure and main points of the outbreak response framework

# THANK YOU!
