GPMB MONITORING FRAMEWORK FOR PREPAREDNESS

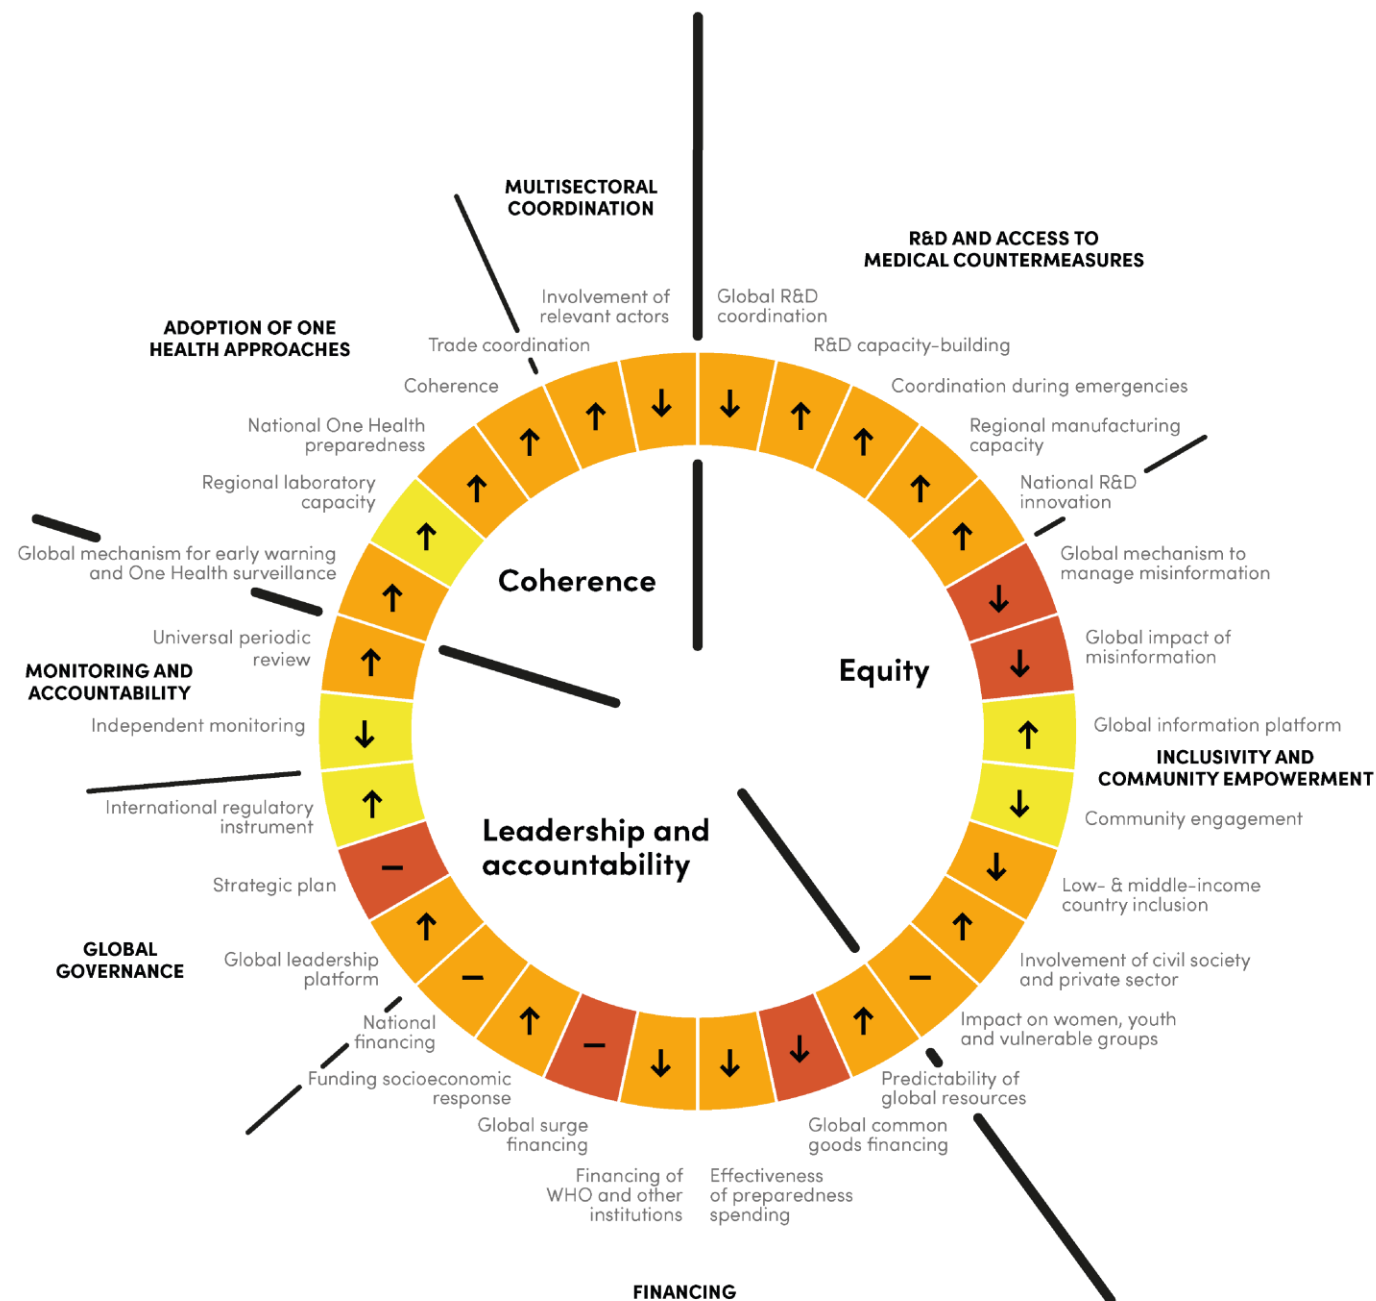

Technical Framework
and Methodology

A FRAGILE STATE OF PREPAREDNESS

2023 REPORT ON THE STATE OF
THE WORLD'S PREPAREDNESS

Assessing the status of 30 indicators from the GPMB Monitoring Framework

Capacity scoring

Green	Excellent/Yes = 3
Yellow	Good/Partial = 2
Orange	Insufficient/Incomplete = 1
Red	Poor/No = 0

Trend scoring

Up arrow	Improving = +1
Horizontal line	Unchanged = 0
Down arrow	Declining = -1

2023 Recommendations for action

#1

Strengthen PPPR monitoring and accountability by improving national monitoring, investing in better data and evidence collection, and strengthening global multisectoral independent monitoring.

#2

Strengthen the global financing system for PPPR by addressing immediate funding gaps and reforming the global financing system to enable greater national investments and bolster international financing through new modalities and sources of financing.

#3

Establish baseline regional capabilities to drive more equitable and robust R&D and supply chains.

#4

Develop a new approach to multisectoral, multistakeholder engagement for pandemic prevention, preparedness and response.

Thank you!
